Margins per Transactions:

- ❑ **Margins: Price Charged – Cost of Trip**
- ❑ **Pink Cabs increase margins with increase in number of Transactions.**
- ❑ **Yellow Cab decrease Margins with the increase in Transaction.**

EDA SUMMARY

Pink Cab

- ☐ In December which is the holiday season, no. of travels was around 11000.
- ☐ Transaction per year:
2016: 20000 – 40000
2017: 20000 – 40000
2018: 20000 – 40000
- ☐ All the cities have the same increase in price charge with increase in distance.
- ☐ Pink Cab charges same for both Male and Female Customers.

Yellow Cab

- ☐ In December which is the holiday season, no. of travels was around 35000.
- ☐ Transaction per year:
2016: 80000 – 100000
2017: 80000 – 100000
2018: 80000 – 100000
- ☐ In New York City the Price charged for Yellow Cab is more in comparison to the other cities.
- ☐ Yellow Cab charge less from Female Customers.

Hypothesis Testing

❑ **Hypothesis : Margin remain the same regarding Gender for both Yellow Cab & Pink Cab.**

- Pink Cab: There is no difference in Margin between Male and Female customers.

```
print('P value is ', p_value)
37480 47231
We accept null hypothesis that there is no difference
P value is 0.11515305900425798
```

- Yellow Cab: There is difference in Margin between Male and Female customers.

```
print('P value is ', p_value)
116000 158681
We accept alternate hypothesis that there is a statistical difference
P value is 6.060473042494144e-25
```

❑ **Hypothesis : Margin remain the same for all Age group for both Yellow Cab & Pink Cab.**

- Pink Cab: There is no difference in Margin for all Age group.

```
print('P value is ', p_value)
71228 13483
We accept null hypothesis that theres no difference
P value is 0.3281748754798163
```

- Yellow Cab: There is difference in Margin for people older than 50 years.

```
print('P value is ', p_value)
231480 43201
We accept alternate hypothesis that theres a difference
P value is 6.4942568177993685e-09
```

Recommendation

- ❑ **Transaction per year:** For Yellow Cab Transaction per year from 2016 to 2018 is almost double than Pink Cab.
- ❑ **Margin per Gender:** For Yellow Cab there is difference in Margin between Male and Female Customers due to which Female Customer percentage is higher in Yellow Cab in comparison to Pink Cab.
- ❑ **Profit Margin:** For Yellow Cab the Profit Margin is higher per year from 2016 to 2018 in comparison to Pink Cab.
- ❑ Yellow Cab **decreases Margins with the increase in Transaction**, hence for Yellow Cab the travel frequency during the Month of December which is the holiday season is 3 times more than Pink Cab.
- ❑ Customers for Yellow Cab is highest in New York City which has the highest Cab Users of 28%.

On the basis of the above graphs, Yellow Cab is recommended for investment.
